**Firms in Global Markets and Local Spillovers**  
**Prof. Dr. Lisandra Flach and Dr. Dorothee Hillrichs**  
**LS (Seminar)**  
**Wintersemester/winter semester 2024-25**

The global economy has experienced significant upheaval due to a variety of shocks such as the pandemic, trade wars, and disruptions in supply chains. This seminar focuses on papers that investigate the spillover effects of global shocks to firms and workers in the local economy. We will put emphasis on causal identification methods using geographic variation.
